PROFESSIONAL SUMMARY

Frontend engineer with 4+ years specializing in Angular (v8–v19) and micro-frontend architecture. Delivered measurable results including a 40% reduction in manual testing time through UI automation and a 30% improvement in data-collection efficiency via custom intake form systems. Experienced in building scalable component libraries, leading Angular version migrations, and collaborating across cross-functional teams to ship high-quality web applications. Currently expanding into React to broaden full-spectrum frontend capability.

TECHNICAL SKILLS

Core	Angular (v8/14/17/19), TypeScript, RxJS, JavaScript, Single SPA
UI / Styling	HTML5, CSS3, SCSS, LESS, Tailwind CSS, Angular Material, PrimeNG
Testing	Jest, Karma, Playwright, Cucumber — UI automation across 3+ modules
Libraries	OpenSeaDragon, Three.js
Tools	Git, Webpack, Parcel, JIRA, SonarQube
Exploring	React (personal projects)

EXPERIENCE

Software Engineer · Aira Matrix, Thane, MH

Aug 2025 – Present

- Upgraded the production codebase to Angular 19, improving build performance and ensuring forward compatibility with latest Angular features for a team of 8+ engineers.
- Ran full SonarQube code-quality audits; identified and resolved 30+ critical/major issues, raising code-coverage score by ~18%.
- Architecting an in-house reusable component library (15+ components) that is projected to reduce feature delivery time by 25% across 3 product squads.
- Technologies: Angular 19, Angular Material, LESS, OpenSeaDragon, SonarQube.

Software Engineer · Vitrana, Noida, UP

Aug 2022 – Mar 2025

- Designed and shipped highly configurable intake forms with advanced conditional logic, improving data-collection efficiency by 30% and eliminating manual workarounds for 5+ operations teams.
- Architected drag-and-drop field-grouping for dynamic form layouts, cutting average form-setup time by ~35% and receiving direct positive feedback from clients in 3 quarterly reviews.
- Led migration of 6 application modules from Angular 8 → Angular 14, reducing code-maintenance overhead by 20% and unblocking access to modern Angular features (standalone components, typed forms).
- Built and maintained UI automation suites for 3 modules using Playwright + Cucumber, reducing manual regression-testing time by 40% and enabling continuous delivery on a 2-week sprint cycle.
- Collaborated daily with product, backend, and QA teams in an Agile environment to deliver features on schedule across a 12-person cross-functional squad.
- Technologies: Angular, TypeScript, RxJS, PrimeNG, SCSS, Single SPA.

Angular Developer Intern · Vitrana, Noida, UP

Feb 2022 – Jul 2022

- Built functional prototypes from Figma wireframes for 2 client presentations, both of which progressed to full development contracts.
- Developed Angular Reactive Forms with complex multi-step validation, reducing form-submission error rates by ~20% in early UAT.
- Profiled and optimised component change-detection cycles, contributing to a measurable improvement in perceived app responsiveness.
- Technologies: Angular, TypeScript, HTML, SCSS.

Web Development Intern · FULL Creative, Remote

Sep 2021 – Dec 2021

- Designed and developed 4 fully responsive websites from scratch using HTML, CSS, and JavaScript, delivered on schedule against client briefs.
- Created and cross-browser tested 4 HTML email templates, ensuring rendering consistency across Gmail, Outlook, and Apple Mail.

PROJECTS

AutoCrypto v3 · Angular · TypeScript · Chart.js <https://virtualsingh.github.io/autocrypto-v3>

Real-time cryptocurrency dashboard featuring live price charts, portfolio tracker, and responsive layout. Demonstrates advanced RxJS data-stream handling and Chart.js integration.

Portfolio v3 · HTML · CSS · JavaScript <https://virtualsingh.github.io/portfolio-v3>

Personal portfolio showcasing projects and skills with smooth scroll animations and fully responsive design across all screen sizes.

EDUCATION

Bachelor of Technology in Computer Science

Aug 2017 – Aug 2021

IEC College of Engineering and Technology, Greater Noida

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate — Coursera
- Front-End JavaScript Frameworks: Angular — Coursera
